

24-channel switch including optical ports

Preview

Multi-optical port aggregation/core switch for fiber optic long-distance transmission. Adaptable to various network setups, simplifying networking and maintenance. Industrial-grade components to reduce. Cisco MDS 9124V 64-Gbps 24-Port Fibre Channel switch brings the latest high-performance, low-latency Fibre Channel Storage Area Network (SAN) technology to market. Along with the higher bandwidth, the Cisco MDS 9124V switch supports ease of configuration and management, detailed and in-depth. The DXS-3400 Series switches feature a modular fan and power supply design for a high availability architecture. TLX switches are protocol agnostic, supporting numerous video, audio and peripheral signals, allowing. The TL-SG3424P provides 24 10/100/1000Mbps ports that supports 802. The switch also comes equipped with 4 combo SFP. WS9328GX 10Gb Layer 3 Managed Switch adopts high quality and high-speed network IC, offers 24*Gigabit Ethernet ports, 4*10Gb SFP+ ports, 1*console port, and 1*USB serial port. This switch offers state-of-the-art analytics and telemetry capabilities built into its next-generation Application-Specific.

Based on Advanced security features and advanced quality of service (QoS), it can be used as a core distribution or access layer switch with high port density, and easy to manage.

This switch also includes a dedicated 10/100/1000BASE-T telemetry port to maximize data delivery to any telemetry receiver including Cisco Data

This switch is equipped with 24 ports, including 2 RJ45 10/100/1000M ports for copper connections and 24 SFP (Small Form-Factor Pluggable) ports for fiber optic connections, with a transmission range of

TLX Matrix Switches are high performance, modular, non-blocking switches for complete, end-to-end switching of video, audio and peripheral signals over multi

X1580-24T24S6X, the core switch has 24 port supporting gigabit PoE ethernet, 24 ports supporting gigabit SFP, and 6 ports support 10Gbe SFP+, for layer 3

Power and manage your network with this robust 24-port Gigabit PoE+ switch. Featuring a 300W total power budget (up to 30W/port), 4 Combo SFP uplink slots for fiber connectivity, and comprehensive

The next-generation Cisco MDS 9124V 64-Gbps 24-Port Fiber Channel Switch provides high-speed Fiber Channel connectivity for all-flash arrays and high-performance hosts.

Multi-optical port aggregation/core switch for fiber optic long-distance transmission. Adaptable to various network setups, simplifying networking and maintenance.

24-channel switch including optical ports

Explore QSFPTEK S5300-24S8T6X L3 gigabit Ethernet switch! The 24 port switch supports static routing, RIP, BGP, OSPF, ideal for deployment as an aggregation

Benefits for a mid- to large-size SAN include higher scale for Fiber Channel control-plane functions, Virtual SANs, fabric login (FLOGI), device alias and name server scale, 24 ports of 64-Gbps non

The TL-SG2424P provides 24 10/100/1000Mbps ports that supports 802.3at/af-compliant PoE, with a total PoE power supply up to 180W, powerful and flexible

Cisco Catalyst 1000 Series Fast Ethernet switches provide support for the following features: 24 or 48 Fast Ethernet ports with line-rate forwarding performance. Two Gigabit Small Form

TP-Link TL-SL2428P 24-Port 10/100Mbps + 4-Port Gigabit Smart PoE+ Switch A cost-efficient layer 2 switch ideal for small to medium businesses, the T1500-28PCT is equipped with 24 10/100Mbps

24 Fiber Port & 2GE Fiber& 2/4 UTP lan port Fiber optic ethernet switch, Fiber Media Converter Multi-gigabit optical aggregation series is my company based independent software

WS6024-2QF is a high performance full 10Gb*24 access and 40/100Gb*2 core uplink Layer 3 optical switch developed by WayOS with 24*10Gb SFP+ ports and

The EMC Connectrix DS-24M2 Switch provides full fabric support, true line-speed switching, Fibre Channel loop support, 8 to 24 port configuration flexibility and modular components for expandability.
