

Article Overview

500A distribution boxes are available from multiple suppliers, including AC and DC configurations with busbar and circuit breaker options.

Available Products

- o Cigale Trading 500A Distribution Box
 - o Features MCCB or ACB for enhanced safety
 - o Floor-mounted enclosures with advanced metering options
 - o Suitable for high-current AC applications

- o Wattneed 500A DC Busbar Distribution Box
 - o Designed for medium- to high-power solar installations
 - o Includes two copper busbars (positive and negative)
 - o Equipped with four 125A DC circuit breakers for independent battery or inverter connections
 - o Ready-to-install, professional-grade enclosure

- o Leipole UKK500A High Current Distribution Box
 - o Rated 500A IEC / 690V
 - o Flat copper busbar input for high conductivity
 - o Flexible mounting options and robust construction for industrial environments
 - o Suitable for generator outputs and main power entry points

- o Wholesale Options on Alibaba
 - o Wide range of 500A electric connector boxes for various applications
 - o Bulk purchasing available for industrial or commercial projects

- o Amazon 80A to 500A DIN Rail Terminal Block Power Junction Box
 - o Supports up to 500A
 - o Thickened copper guide with tinned brass for strong conductivity
 - o Flame-retardant PC shell for safety
 - o Easy installation with splicing design and top cover for visual wiring

Key Considerations

- o AC vs DC: Ensure the box matches your system voltage and current type.
- o Busbar Configuration: Copper busbars provide high conductivity and reliability.
- o Circuit Protection: Look for integrated MCCB, ACB, or DC breakers for safety.
- o Mounting Options: Floor-mounted or DIN rail options depending on installation requirements.
