

Are there any fiber optic cable manufacturers in Fiji

Article Overview

Key fiber optic cable providers in Fiji include Datec Fiji, Fiji Fiber Supply, FNE Communications, GDC, and VT Solutions Ltd, offering both supply and installation services.

Major Providers

Datec Fiji offers a full range of fiber optic services, including design, cable installation, fusion and mechanical splicing, testing, and ongoing maintenance. They serve businesses, government, healthcare, industrial sites, and schools, providing end-to-end solutions for fiber optic networks in Fiji and the South Pacific . Fiji Fiber Supply specializes in supplying fiber optic infrastructure materials, telecom systems, and networking equipment in bulk, suitable for tropical and coastal environments. They coordinate global sourcing and containerized delivery for large-scale projects, working with developers, telecom contractors, resorts, utilities, and commercial builders . FNE Communications provides telecommunications construction services, including fiber optic network installation, with experienced staff to support project requirements across Fiji . GDC (General Data Cabling & Communications) is a market leader in structured cabling and fiber optic systems. They offer design, implementation, site acceptance testing, and local backup services for businesses, hotels, government departments, hospitals, schools, and resorts . VT Solutions Ltd delivers cabling solutions including fiber optic, Cat 6/6A, coaxial, and data cables. They provide scalable network infrastructure, wireless coverage, and installation services for offices, campuses, hospitals, and large properties .

Summary

These companies collectively cover fiber optic cable supply, installation, testing, and maintenance in Fiji. Depending on your project needs--whether bulk material supply, tropical environment suitability, or full network deployment--you can engage with these providers for both commercial and large-scale infrastructure projects. They also offer expertise in splicing, network design, and ongoing support to ensure reliable fiber optic connectivity.
