

Article Overview

Outdoor cabinets are designed for durability, weather resistance, and functional storage, typically made from stainless steel, HDPE, or weather-resistant wood, with standard dimensions and customizable features.

Materials and Durability

Outdoor cabinets are built to withstand sun, rain, wind, and humidity. Common materials include 304 or 316 stainless steel, which is corrosion-resistant and durable, HDPE (High-Density Polyethylene), which is waterproof and low-maintenance, and weather-resistant woods like teak or cedar that resist rot and insects . Some cabinets also incorporate stone or masonry for a natural, long-lasting finish . Powder-coated finishes and marine-grade options enhance resistance to fading and corrosion .

Standard Dimensions

- o Height: Standard cabinet boxes are 30 inches high, with adjustable leveling legs ranging from 3.75" to 5.75" or ADA-compliant 2" to 3.25" legs .
- o Depth: Standard depths are 27.88 inches, with optional 24.88 inches to accommodate specific appliances or design needs .
- o Width: Cabinets are available in incremental widths starting at 9 inches, with heights starting at 12 inches .

Construction Features

- o Doors and Drawers: Concealed hinges, full-extension soft-close drawer glides, magnetic closures, and rain gaskets are standard .
- o Shelving: Options include half-depth, full-depth, roll-out, or heavy-duty shelves .
- o Access: Pre-cut holes for plumbing, electrical, and ventilation are often included for convenience .
- o Finishes: Interiors may have matte or brushed finishes, while exteriors can feature powder-coated solid colors or woodgrain textures .

Styles and Design

Outdoor cabinets come in various styles to match different aesthetics:

- o Modern: Sleek, minimalist, often stainless steel or polymer .
- o Traditional: Ornate designs with wood or stone, featuring moldings or carvings .
- o Rustic: Natural, raw finishes with exposed wood or distressed textures .
- o Coastal: Light, airy designs with materials like wicker, bamboo, or teak .
- o Industrial: Functional, rugged designs using metal, concrete, or reclaimed wood .
