

Cable tray hanger unit price

Article Overview

Cable tray hangers typically range from \$13 to \$50 per unit or per small package, depending on type, size, and material.

Price Overview

- o Under-desk or small cable management trays: Basic under-desk cable trays can start around \$13.77 and go up to \$29.99 for slightly larger or branded options, suitable for home or office setups (Walmart) .
- o Wire mesh or ceiling hanger kits: Kits for 12-inch wire mesh trays, including ceiling supports, are available on Amazon and are considered budget-friendly, though exact prices vary by package size and supplier .
- o Industrial center-mount or trapeze hangers: Heavy-duty steel or pre-galvanized hangers for supporting larger cable trays in industrial or commercial settings typically range from \$20 to \$50 per hanger or per small package. For example, McMaster-Carr offers zinc-plated steel center-mount hangers that support up to 280 lbs per foot, with prices depending on tray width and hanger type .
- o Bulk or specialized hangers: PLATT Electric Supply lists various center, trapeze, and universal hangers, often sold in packages of 50 or more, with prices influenced by length, material, and attachment style (e.g., FAS style brackets) .

Factors Affecting Price

- o Material: Zinc-plated steel, pre-galvanized, or carbon steel options vary in cost, with corrosion-resistant finishes generally costing more.
- o Hanger Type: Center hangers, trapeze hangers, and ceiling kits differ in complexity and load capacity, affecting price.
- o Package Quantity: Buying in bulk (e.g., packs of 50) can reduce the per-unit cost.
- o Load Capacity and Size: Larger trays or higher weight ratings require sturdier hangers, which are more expensive.
- o Supplier and Brand: Prices vary between suppliers like Amazon, McMaster-Carr, PLATT, Walmart, and eBay, with industrial suppliers often charging more for certified or heavy-duty products.

Recommendations

- o For home or office use, under-desk trays or small ceiling kits are cost-effective.
- o For industrial or commercial installations, consider pre-galvanized or zinc-plated steel hangers with proper load ratings, and purchase in bulk to save costs.
- o Always check package quantity and compatibility with your cable tray system to ensure proper support and safety. By comparing suppliers and considering material, type, and quantity, you can select cable tray hangers that balance cost, durability, and installation requirements.
