

Article Overview

Fiber optic junction boxes can be found starting from around \$5-\$10 for basic models, with wholesale and waterproof options ranging higher depending on features.

Retail Options

- o Amazon offers wall-mount fiber optic boxes suitable for single-mode and multimode cables, typically priced from \$10 to \$30 depending on strand capacity and coupler type .

- o eBay provides a variety of fiber junction boxes, often including discounted or used options, with prices starting around \$5-\$15 for basic enclosures .

Wholesale and Bulk Options

- o Made-in-China lists fiber optic junction boxes at wholesale prices, allowing bulk purchases at lower per-unit costs, often starting around \$5-\$8 for standard models .

- o Alibaba features a wide range of junction boxes, including waterproof IP65-rated models and ABS/PC material enclosures for FTTH applications. Prices for these start at approximately \$6-\$12 per unit, with lower prices available for large orders .

Factors Affecting Price

- o Material and durability: ABS/PC and waterproof models cost more than basic plastic boxes.

- o Capacity: Boxes supporting more fiber strands or multiple couplers are priced higher.

- o Bulk purchase: Wholesale orders significantly reduce per-unit cost.

- o Shipping and import fees: International suppliers may add extra costs. For the cheapest option, consider small, non-waterproof boxes from eBay or Made-in-China, especially if buying in bulk. For more durable or outdoor applications, expect slightly higher prices but still competitive on Alibaba or wholesale platforms.
