

Article Overview

Leading manufacturers of cold and hot galvanized cable trays include EAE USA, Superfab Inc, Gersan, Atkore, Eaton, Schneider Electric, and Legrand, offering durable solutions for industrial and commercial applications.

Cold Galvanized Cable Tray Manufacturers

Cold-galvanized trays (pre-galvanized or electro-galvanized) are coated with zinc before or after fabrication to provide corrosion resistance, mainly suitable for indoor or dry environments. Key manufacturers include:

- o EAE USA: Produces heavy-duty cable trays and ladders from pre-galvanized and electro-galvanized sheet metal, suitable for high cable density in offices, hospitals, and large buildings. They offer robotic welding for structural durability and Roll Forming production for precision .
- o Gersan: Offers pre-galvanized trays with coating thickness between 15-25 microns, ideal for dry indoor environments and hygienic applications like food and beverage industries. They also provide stainless steel and aluminum options .

Hot Galvanized Cable Tray Manufacturers

Hot-dip galvanized trays are coated with a thick zinc layer through immersion in molten zinc, providing superior corrosion resistance for outdoor and harsh industrial environments. Key manufacturers include:

- o Superfab Inc: Specializes in hot-dip galvanized trays for industrial plants, power stations, and infrastructure projects. Their trays are durable, low-maintenance, and suitable for exposure to rain, humidity, and extreme temperatures .
- o Atkore International (Cope brand): Offers hot-dipped galvanized Trof trays with solid or ventilated bottoms, designed for indoor and controlled environments, providing rigid and safe cable support .
- o Gersan: Also manufactures hot-dip galvanized trays for heavy-duty applications, including refineries, airports, and ships, ensuring long service life and corrosion resistance .

Global Industry Leaders

Several multinational companies provide both cold and hot galvanized cable tray solutions:

- o Eaton Corporation: Offers comprehensive galvanized cable tray systems for industrial and commercial applications, widely used in data centers and manufacturing plants .
- o Schneider Electric: Provides robust galvanized cable management solutions for challenging industrial settings, including oil & gas and chemical facilities .

Cold-galvanized cable tray manufacturers

- o Legrand Group: Specializes in aesthetically appealing and durable galvanized trays for modern infrastructure .
- o Marco Cable Tray Systems: Offers versatile galvanized trays adaptable to complex installations with minimal on-site modifications .

Summary

When selecting a manufacturer, consider the environmental conditions, load capacity, and corrosion resistance required. Cold-galvanized trays are cost-effective for indoor or dry environments, while hot-dip galvanized trays are ideal for outdoor or harsh industrial conditions. Leading suppliers like EAE USA, Superfab Inc, Gersan, Atkore, Eaton, Schneider Electric, and Legrand provide a wide range of options to meet these needs.

Our cable trays meet the standard quality and testing requirements demanded in Turkey and many other countries around the world.

Perforated type cable tray is ideal for cables which need both protection from external damage and good ventilation, it is available in

SFSP manufactures a wide range of products capable of providing the characteristics which respond to the proposed application,

Industrial manufacturing heavily depends on cold galvanized trough-type cable trunking to support and

Durable Hot Dip Galvanized (HDG) cable trays designed for superior corrosion resistance, strength, and

Surface Finish of Wire Mesh Cable Tray Electro zinc plated - for indoor use to BS EN 12329-2000, 12microns thick. Hot Dipped

Perforated GI Cable Tray The most widely used cable tray type in buildings and industrial installations. Perforations in the base and

A job site, field adaptable support system primarily for low voltage telecommunication and fiber optic cables. These systems are

Pre-Galvanized Cable Tray (Fabricated from GI sheet) Hot dip Galvanized Cable Tray. (Hot dip Galvanized after fabricated from MS

Your Leading Galvanized Cable Tray Supplier and Manufacturer in China KDM offered a wide range of galvanized cable tray sizes,

Cold-galvanized cable tray manufacturers

MP Husky manufacturers Cable Tray Systems, Cable Bus System, Wire Mesh/Wire,Cable Tray, & Cable

Your Reliable Galvanized Cable Tray Manufacturer in China NewReach's Galvanized Cable Tray is constructed from steel with a

Super Cable Tray Pvt. Ltd. is the leading GI Perforated Cable Tray Manufacturers in Delhi. Best Quality

High quality galvanized cable tray with hot dipped and pre galvanized finish. Anti-rust metal cable tray complying with EU and BS, UL

Cable Trays directory - updated information on Cable Trays manufacturers and suppliers from across the globe

Indmark Group is a trusted industrial manufacturer offering cable trays, hot-dip galvanizing, solar structures, square fiber drums, and
