

Article Overview

Customized surveillance and distribution boxes in Croatia are available from multiple suppliers, with options for electrical, fiber optic, and electronics enclosures, and pricing typically requires a direct quote based on specifications.

Types of Distribution Boxes

Electrical Distribution Boxes: These are designed for indoor or outdoor use, supporting multiple circuits with protection against overloads and short circuits. They often include circuit breakers, grounding bars, and integrated sockets, suitable for homes, offices, construction sites, or industrial applications (Konner & Sohnen) . **Fiber Optic Distribution Boxes:** Pre-assembled fiber optic boxes manage, terminate, and distribute fiber cables, ideal for residential or small business networks. They come with pigtails, adapters, and splice cassettes, supporting up to 12 fiber connections, and simplify installation for high-speed networks (ASSMANN Croatia) . **Custom Electronics Boxes:** These are fully customizable enclosures for electronic devices, offering options like full-color printing, specific dimensions, and tailored internal layouts. Suppliers in Croatia provide fast turnaround (2-3 weeks) and minimum order quantities around 100 units (Branded Boxes) .

Customization Options

- o **Size and Layout:** Boxes can be tailored to fit specific equipment or cable configurations.
- o **Material and Durability:** Options include weather-resistant, impact-resistant, or fire-retardant materials.
- o **Mounting and Access:** Wall-mounted, freestanding, or portable designs are available.
- o **Additional Features:** Integrated sockets, cable management, labeling, and pre-installed components for fiber or electrical connections.

Pricing Considerations

Exact prices for customized distribution boxes in Croatia are generally not listed online and depend on factors such as size, material, number of circuits or fiber connections, and additional features. Suppliers typically provide quotes upon request. For example:

- o **Konner & Sohnen:** Offers high-quality electrical distribution boards; pricing depends on current rating and number of circuits .
- o **ASSMANN Croatia:** Fiber optic boxes are pre-assembled; cost varies with fiber capacity and included components .
- o **Branded Boxes:** Custom electronics enclosures start at MOQ 100 units, with pricing based on design

complexity and printing options .

How to Procure

- o Define Requirements: Determine the type of box (electrical, fiber, electronics), size, number of connections, and environmental conditions.
- o Request Quotes: Contact suppliers directly via their websites or customer service to obtain detailed pricing.
- o Compare Options: Evaluate lead times, customization capabilities, and warranty or support services.
- o Finalize Order: Confirm specifications, delivery, and installation support if needed. For urgent or highly customized needs, companies like MobilBox also offer tailored container solutions that can be adapted for surveillance or distribution purposes, including transport and installation services . By contacting suppliers directly, you can obtain accurate pricing and customization options tailored to your surveillance or distribution project in Croatia.
