

Article Overview

Spain hosts a robust network of manufacturers producing high-quality electrical distribution boxes, offering both standard and fully customized solutions for industrial and commercial applications.

Leading Manufacturers and Suppliers

- o IDE Electric - Specializes in enclosures made from high-quality cold-rolled steel and halogen-free plastics. They offer a wide range of cabinets from 10 to 125 Amperes and 24 to 500 Volts, with IP44, IP54, and IP67 protection. IDE Electric provides fully customizable solutions, including assembly and wiring according to REBT standards, and a variety of accessories like busbar supports and distribution blocks .
- o Delvalle Box - With over 50 years of experience, Delvalle manufactures stainless steel electrical enclosures and boxes suitable for industrial, outdoor, and corrosive environments. They offer IP65/IP68 and ATEX-certified solutions, with full customization based on technical drawings or functional requirements. Delvalle emphasizes short lead times, quality control, and scalability from prototypes to large series .
- o MasterLED - Offers surface or recessed distribution boxes designed to house protection elements, differentials, and magnetothermics. They also provide IP68/IP69 manhole and bypass boxes for water-protected installations, suitable for both residential and industrial applications .
- o Disvent Ingenieros and Other Producers - Spain has a network of at least 29 manufacturers and suppliers specializing in electrical distribution boxes, including companies with decades of experience in electronics, energy, and industrial solutions. These suppliers cater to both domestic and international markets, providing direct B2B contact for procurement .

Supplier Network and Trade Insights

Spain has a large and active supplier base, with over 28,500 electrical distribution box suppliers shipping to more than 39,000 buyers worldwide. Platforms like Volza provide detailed shipment records, supplier reliability metrics, and direct contact information for decision-makers, enabling risk-mitigated procurement and long-term partnerships .

Key Considerations

- o Material and Protection: Options include cold-rolled steel, halogen-free plastics, and stainless steel, with IP ratings from IP44 to IP68 for indoor, outdoor, and corrosive environments.
- o Customization: Many Spanish manufacturers offer fully tailored solutions, including assembly, wiring, and integration of accessories.
- o Certifications: Compliance with REBT standards, ATEX, and other industrial certifications ensures safety and reliability.
- o Lead Times and Scalability: Suppliers can handle both small prototype orders and large industrial series, often with rapid turnaround. Spain's distribution box manufacturers provide a diverse range of high-quality,
