

Article Overview

Dominic explosion-proof distribution boxes are manufactured by specialized companies in Germany, Indonesia, and China, offering products compliant with international safety standards for hazardous environments.

Germany-Based Manufacturers

In Germany, companies like Klotz + Volckers GmbH & Co. KG are associated with the Dominic brand, providing high-quality industrial storage and distribution solutions. They supply explosion-proof distribution boxes and related products through B2B marketplaces, offering direct contact with wholesalers and manufacturers for bulk orders or custom requirements. These products are typically designed for industrial applications requiring robust safety and compliance.

Indonesia-Based Suppliers

Indonesia hosts several suppliers and factories for Dominic explosion-proof distribution boxes, accessible via platforms like Indotrading. These suppliers offer a wide range of products, including junction boxes, terminal boxes, and panel boxes made from aluminum, stainless steel, or GRP plastic. The boxes are suitable for Zone 1, Zone 2, Zone 21, and Zone 22 hazardous areas, meeting Class 1 and Division 1 standards. The marketplace allows buyers to compare offers from multiple suppliers, request quotes, and access technical specifications for each product.

China-Based Manufacturers

Shanghai Kaiwei Electrical Equipment Co., Ltd. is a notable Chinese manufacturer specializing in explosion-proof electrical equipment, including cabinets, boxes, and lamps. Kaiwei provides customized design solutions, high-precision manufacturing, and technical support for industrial clients. Their products are suitable for various hazardous environments and can be tailored to meet specific project requirements.

Product Features and Standards

Dominic explosion-proof distribution boxes generally feature:

- o Flameproof aluminum alloy enclosures with epoxy finishes
- o Anti-loosening mechanisms for secure installation
- o Compliance with international standards such as IEC, ATEX, and IECEx
- o Suitability for petroleum, chemical, marine, and mining industries

o Options for customized panel integration and modular designs

How to Source

- o Use B2B marketplaces like Europages for German suppliers or Indotrading for Indonesian suppliers to request multiple quotes.
- o Contact manufacturers directly for customized solutions, technical drawings, and compliance certifications.
- o Verify that the products meet the required explosion-proof standards for your specific hazardous zone. By considering these manufacturers and suppliers, you can identify reliable sources for Dominic explosion-proof distribution boxes that meet both industrial safety requirements and project-specific needs.
