

Article Overview

KK-Sahkotukku Oy and Finn Electric Oy are notable Finnish manufacturers of electrical distribution boxes and related power distribution solutions.

KK-Sahkotukku Oy

KK-Sahkotukku Oy manufactures the Finpilar product family, which includes distribution pillars, power distribution boxes, and wall distributors. Their product range also features industrial plugs and sockets, underfloor distribution units, and other electrical components, making them a versatile supplier for both industrial and commercial electrical installations (KK-Sahkotukku Oy) .

Finn Electric Oy

Finn Electric Oy specializes in power distribution, protection, and smart energy management. They provide custom co-design services for energy utilities, industrial enterprises, and construction companies. Their offerings include panel components, surge and lighting protection, and full lifecycle support from design to maintenance. Finn Electric also collaborates with Finnish panel builders like Finnvolt Oy to streamline production and delivery of distribution boxes and enclosures (Finn Electric) .

Additional Finnish Suppliers

Other companies in Finland involved in electrical distribution and network solutions include:

- o Team Electric Group: Offers turnkey electrical packages, including design, installation, and commissioning for industrial and marine applications (ensun) .
- o Cablex: Supplies enclosures, cables, and automation products for equipment builders and subcontractors (STK Liitto) . These manufacturers and suppliers provide a range of standard and custom distribution boxes, enclosures, and related electrical components suitable for industrial, commercial, and utility applications in Finland. For procurement, it is recommended to contact these companies directly to discuss customization options, technical specifications, and delivery logistics.
