

Article Overview

Fibre Tech Industrial Plastics (FTIP) and local distributors like Stable Technology provide fiber optic distribution boxes in Guyana.

Key Manufacturers and Suppliers

Fibre Tech Industrial Plastics (FTIP) is a prominent Guyanese manufacturer with over 25 years of experience in producing durable and versatile fiber-based products. While FTIP primarily focuses on industrial plastics, they have the capability to manufacture and customize products for telecommunications and networking applications, including fiber optic distribution solutions, leveraging their expertise in durable materials and quality standards (GYS 557:2020) for plastic units . Stable Technology offers a range of fiber optic terminal and distribution boxes suitable for FTTH and FTTX solutions. Their products include wall-mounted, rack-type, and cabinet-style boxes designed for indoor and outdoor use. These boxes support SC or LC adapters, provide IP67 protection, and are engineered for vibration, pressure, and pulling resistance, making them suitable for Guyana's network infrastructure needs . Other Distributors: Companies like SMA in Guyana supply fiber optic cables, termination boxes, and distribution boxes, along with related telecommunication components. They provide a variety of optical fiber solutions for industrial and commercial applications .

Product Features

- o Indoor/Outdoor Compatibility: Many boxes are designed for both environments, ensuring protection against weather and mechanical stress .
- o Adapter Support: SC simplex and LC duplex ports for flexible network connections .
- o Durability: Flame-retardant materials, vibration and pressure resistance, and waterproof sealing for long-term reliability .
- o Installation Options: Wall-mounted, flush-mounted, or rack-mounted configurations for versatile deployment .

Local Infrastructure Context

Guyana is actively expanding its terrestrial optical fiber network, led by initiatives like the Guyana Infrastructure Consortium (GIC), which emphasizes high-speed, reliable connectivity. This growth increases demand for fiber optic distribution boxes and related equipment, making local suppliers and manufacturers critical for supporting network deployment .

Summary

Guyana Fiber Optic Distribution Box Manufacturer

For businesses or projects in Guyana seeking fiber optic distribution boxes, FTIP offers local manufacturing and customization capabilities, while Stable Technology and distributors like SMA provide ready-to-use terminal and distribution boxes suitable for FTTH, FTTB, and broader network infrastructure. These suppliers ensure compliance with durability and environmental standards, supporting the country's expanding fiber optic network .
