

Gyts72 core optical cable

Preview

Outdoor Fiber Optic Cable, 72 Core, Steel Armored, PE, Jelly filled, GYTS, Single Mode OS2 9/125 (G652D) 10.6mm Good mechanical and temperature performance. High strength loose tube that is hydrolysis resistant. We supply single mode GYTS fiber optical cable and multimode GYTS fiber optical cable, fiber strand from 2 cores to 432 cores. A related GYTA type cable is available. Special tube filling compound ensures. Proper design, precise control for fiber excess length and distinct stranding process render the cable excellent mechanical and environmental characteristics. 5 million boxes, and 6 million pair kilometers respectively.

Product Description GYTS outdoor fiber optic cable, is also called multi loose tube steel tape external cable, is consisted of 250um fibers held in oil filled PBT loose tubes wrapped around a phosphatized

72 Cores GYTS Fiber Optic Cable is the outdoor fiber optic cable type used for duct and aerial applications. We supply single mode GYTS fiber optical cable and multimode GYTS fiber optical cable,

The specially designed compact cable structure effectively prevents the casing from retracting. PE jacket has excellent UV radiation resistance, ensure the waterproof performance of the cable.

72 Core GYTY53 fiber optic cable is used for direct buried underground, it suit for long distance and LAN fiber communications, we supply both the single mode

72 Core GYTS Fiber Optic Cable Stranded Steel Tape Cable is the outdoor fiber optic cable type used for duct and aerial applications. We supply single mode GYTS fiber optical cable and multimode

Outdoor Fiber Optic Cable, 72 Core, Steel Armored, PE, Jelly filled, GYTS, Single Mode OS2 9/125 (G652D) 10.6mm. Good mechanical and temperature performance. High strength loose tube that is

It is the stranded loose tube fiber optic cable with compact structure; the cable jacket is made of strong Polyethylene; High strength loose tube that is hydrolysis resistant. Hongan provides GYTS from 4

It started fiber optic business since year 2002 as well to provide CATV and Broadband Network Access Equipment. Our company has its own factory of 40, 000 square meters and has 236 employees.

The properties of single mode optical fiber (ITU-T Rec. G.652.D)

GYTS Aerial Outdoor 12 Core 24 Core 48 Core optic fiber cable Armored Loose Tube Single Jacket/SingleArmor fiber optic cable with fibers placed in loose

Gyts72 core optical cable

GYTS fiber optic cable is outdoor fiber cable with corrugated steel tape armored. Suitable for duct and direct buried application with fiber counts from 2cores to

General Details Fiber optic cable GYTS, 2~144 bers central strength member (steel), jelly lled, ber contained loose tube and PP ller (if necessary) stranded, water blocking jelly, longitudinally covered

High Fiber Count: With 72 cores, this cable offers a high-capacity solution for telecommunications and data transmission applications, ideal for users requiring multiple channels for data transfer.

Durable 72-core GYTS armored fiber optic cable with steel tape protection, 25-year warranty, ideal for telecom and outdoor installations.

Explore the details, specifications and video of our GYTS Fiber Optic Cable 12 core, and order high-quality GYTS Fiber Optic Cable 12 core from our factory directly

Main products are optical fiber cables, data cables, communications cables etc. Its yearly productive capabilities are 4 million core kilometers, 0.5 million boxes, and 6 million pair kilometers respectively.
