

Article Overview

Galvanized cable trays typically cost between \$2 and \$25 per meter, depending on material, type, size, and finish.

Price Range and Factors

The cost of galvanized cable trays varies widely based on several factors:

- o Material and Coating: Hot-dip galvanized (HDG) trays are more durable and slightly more expensive than pre-galvanized trays, while electro-galvanized options are mid-range in price .
- o Tray Type: Ladder trays are generally more expensive due to higher load capacity, whereas perforated or wire mesh trays are cheaper and suitable for lighter cables .
- o Size and Dimensions: Wider or thicker trays cost more because of increased material usage .
- o Order Quantity: Bulk orders often reduce the per-meter cost significantly .
- o Additional Costs: Shipping, labor for installation, and regional labor rates can influence the final price .

Typical Market Prices

- o Per Meter: \$2 to \$25 depending on specifications and finish .
- o Bulk Orders: Manufacturers may offer discounts for large projects, potentially lowering costs below the standard per-meter range .
- o Custom Sizes: Manufacturers like TRG Cable Tray and EAE USA provide trays in various lengths and widths, with pricing adjusted according to client specifications .

Manufacturer Examples

- o TRG Cable Tray (Chennai, India): Offers hot-dip galvanized and perforated trays with corrosion-resistant properties, pricing varies by size and technical specifications .
- o EAE USA: Produces pre-galvanized, electro-galvanized, and hot-dip galvanized trays, with standard lengths of 9.84 or 19.68 feet, and pricing depends on tray type and load capacity .
- o IndiaMART Suppliers: Companies like Balaji Metal Perforators and Tag Industries provide quick quotes for bulk orders and custom specifications .

Cost-Saving Tips

- o Opt for perforated trays instead of ladder trays if weight and load are not critical, which can save around 15% .

High-quality galvanized cable tray manufacturers prices

- o Consider pre-galvanized trays for indoor use to reduce upfront costs while maintaining adequate durability .
- o Request bulk pricing or project-based quotes from manufacturers to lower per-meter costs . In summary, galvanized cable tray prices are highly variable, but most manufacturers charge \$2-\$25 per meter, with bulk orders and material choices significantly affecting the final cost.

Our tray accessories are fabricated using pre-galvanized sheets and HR sheets that are highly appreciated for

Explore high-quality galvanized cable trays, trunking, and channels designed for superior strength, safety,

Industrial Cable Trays, Galvanized Perforated & Ladder Type KP Green Engineering is an established supplier and premier cable

Find high quality Galvanised Cable Tray Suppliers on Alibaba.

Discover cable trays with CE certification, available in stainless steel, aluminum, and galvanized materials. Ideal for
