

How much does a meter of four-core single-mode fiber cost

Article Overview

The price of 4-core single-mode fiber optic cable typically ranges from \$0.30 to \$2.80 per meter, depending on construction, brand, and bulk purchase discounts.

Pricing Overview

For standard 4-core single-mode fiber (OS2), the per-meter cost generally falls between \$0.30 and \$2.80. Lower-end prices are usually for generic glass cables with basic PVC jackets, while higher-end prices reflect premium brands, armored construction, or specialized jackets like LSZH for safety and environmental compliance (Wolontek, 2025) . Wholesale bulk purchases can reduce the cost per meter, whereas pre-terminated cables with connectors (SC, LC, FC) carry a premium due to labor and precision (OWIRE Solutions) .

Factors Affecting Cost

- o Cable Construction: Armored cables for direct burial or harsh environments can increase the price by 20-50% compared to standard indoor cables (OpticalSplitter) . Plenum-rated or LSZH jackets also add to the cost.
- o Fiber Brand and Quality: Premium glass fibers, such as Corning, offer lower attenuation and longer lifespan but cost more than generic glass (Wolontek) .
- o Bulk vs. Small Orders: Buying in bulk (e.g., 1 km spools) typically reduces the per-meter price compared to smaller reels or custom lengths (OWIRE Solutions) .
- o Pre-Termination: Factory-terminated cables reduce on-site labor and splice losses but increase initial material cost by 20-30% (Wolontek) .
- o Market Dynamics: Global supply chain fluctuations, raw material costs, and regional demand can temporarily affect pricing (OWIRE Solutions) .

Practical Considerations

- o For indoor installations, standard 4-core single-mode cables with PVC or LSZH jackets are sufficient and cost-effective.
- o For outdoor or direct-burial applications, armored or UV-resistant jackets are recommended, which increases the per-meter cost.
- o Pre-terminated cables are ideal for reducing installation time and minimizing splice losses, especially in large-scale deployments. In summary, when budgeting for 4-core single-mode fiber, expect \$0.30-\$2.80 per meter, with the final price influenced by cable construction, brand, environmental rating, and whether the cable is pre-terminated or purchased in bulk.

How much does a meter of four-core single-mode fiber cost

Looking at a typical 4 core fiber optic cable price list from OWIRE, prices start around \$0.40

Find premium single mode fiber optic cables for high-speed data transmission. 20 years of expertise and worldwide delivery.

How much does a 4-core optical cable cost per meter in length and width? This is a common question in the telecommunications

How Much Does Fiber Optic Installation Cost Per Foot? Cable Material Costs: Standard

How do you choose between single mode and multimode fiber? Compare their differences in core size, light source,

GYXTW is an outdoor use optical fiber cable suitable for duct and aerial applications. We supply GYXTW fiber optic cable from 2

Buyers typically pay a range for fiber optic cable per foot depending on fiber type, jacket, and shielding, plus

Main cost drivers include cable grade (indoor vs outdoor, armoured), distance, and labor for trenching, splicing, and

Searching for how much does fiber optic cable costs? Stop guessing. We break down 2025 prices for OS2, OM3, and Armored

Find high-quality 4 core singlemode fiber optic cables for various applications. Durable, reliable, and efficient for communications and

Single-Mode Fiber Single mode fiber uses a small core diameter of 8-10 microns to transmit

Discover the cost of fiber optic cable in this pricing guide. Learn material prices, installation factors, and what impacts

When evaluating the 4 core single mode fiber optic cable price, buyers should consider not

Single-mode fiber (OS2) is typically used for long-distance networks and has a slightly lower

Price per Meter - 125 um (micron) G657.A2 Single Core Fiber Optic Cable (Single Mode Fiber Drop Cable) for FTTH, FTTP or HDMI

How much does a meter of four-core single-mode fiber cost

Aerial Unarmored GYFTY 24 Core Single Mode Fiber Optic Cable Price Per Meter \$0.22 MOQ: 1000 meters
Dongguan
