

Article Overview

Key fiber optic cable providers in Malawi include ESCOM's Optic Fibre Communications, Fibre Optic Networking Solutions, and Open Connect Limited, all offering direct sales and network services.

Major Providers and Manufacturers

1. ESCOM - Optic Fibre Communications (OFC) OFC is a semi-autonomous department under ESCOM, operating a nationwide overhead fiber optic backbone network across Malawi. They provide broadband solutions and have international IP transit connections, serving as a key driver for affordable data access. OFC operates under a licensing model regulated by the Malawi Communications Regulatory Authority (MACRA), offering services to a limited customer base, but they are a primary source for fiber optic infrastructure and direct procurement for large-scale projects . 2. Fibre Optic Networking Solutions Established in 2011, this company specializes in fiber optic networking solutions, broadband infrastructure, connectivity, and fiber installation. They provide comprehensive network services, including installation and maintenance, and are positioned to supply fiber optic cables directly to businesses or organizations seeking high-speed connectivity . 3. Open Connect Limited (OCL) OCL is a leading domestic provider of carrier, redundant light, and last-mile dark fiber services. They operate an open-access national backbone and offer wholesale solutions to mobile operators, ISPs, and terrestrial TV providers. OCL can supply fiber optic cables and related services directly to businesses, supporting digital transformation and secure network connectivity . 4. Local Cable Manufacturers and Suppliers A directory of cable manufacturers and suppliers in Malawi lists multiple local businesses that provide fiber optic cables and related products. This resource can be used to identify potential direct sales contacts for procurement and bulk orders .

Market Insights

The Malawi fiber optic cable market is growing, with increasing demand for broadband infrastructure and connectivity solutions. Companies like OFC, Fibre Optic Networking Solutions, and OCL are central to this growth, offering both products and installation services. For businesses seeking direct sales, contacting these providers directly is recommended to discuss pricing, customization, and delivery options .

How to Proceed

- o Contact OFC for large-scale backbone or government-aligned projects.
- o Reach out to Fibre Optic Networking Solutions for commercial or enterprise-level installations.
- o Engage OCL for wholesale, last-mile, or carrier-grade fiber solutions.
- o Use local supplier directories to identify additional manufacturers for direct procurement . These providers collectively cover manufacturing, wholesale, and installation services, making them suitable for businesses or
