

Article Overview

Monaco cable tray prices vary depending on type, material, and supplier, with options available for bulk and unit purchases.

Overview of Pricing

Monaco cable trays are available in several types, including zinc-coated, mesh, and ladder-type trays. Prices typically depend on the material, size, and length of the tray. For example, standard ladder-type cable trays are often sold in 2.4-meter lengths, and fittings are priced per unit or piece. Mesh cable trays and zinc variants are also available, with pricing generally provided by suppliers on request or through B2B platforms.

Where to Find Prices

- o B2B Marketplaces: Websites like Europages and Go4WorldBusiness list Monaco cable tray suppliers and allow buyers to request quotes for bulk or unit purchases.
- o Supplier Websites: Local and international suppliers in Monaco provide pricing and product catalogs, often offering competitive rates for bulk orders.
- o Online Retailers: Platforms like etrailer provide mesh cable tray listings where prices can be checked directly or by contacting the seller.

Factors Affecting Price

- o Material: Zinc-coated trays are generally more expensive than standard galvanized trays due to corrosion resistance.
- o Length and Size: Longer trays or wider trays cost more. Standard lengths are usually 2.4 meters.
- o Fittings and Accessories: Elbows, tees, and junctions are priced separately per unit.
- o Order Quantity: Bulk purchases often receive discounted rates. For the most accurate and up-to-date pricing, it is recommended to contact suppliers directly through the listed B2B platforms or local Monaco distributors, specifying the type, size, and quantity required. This ensures you receive a tailored quote reflecting current market rates.
