1pcs 7PIN TO46 Photodiode Test Aging Socket Suitable for -- 1. Product type: APD TO / ROSA / Rx 2. Pin distribution: A = 3-4-0 structure parameter-- Applicable package shape Laser DiodeThe LDM-4983 is designed for typical telecommunication 13-pin and 7-pin butterfly laser diode packages. Zero insertion force (ZIF) sockets and spring-loaded clamps facilitate ease of mounting. The LDM4983 features the ILX Lightwave (R) standard 9-pin D-sub input connectors with configurable pin. Thorlabs offers a versatile range of accessories for convenient integration of laser diodes into functional systems. 6 mm, 09 mm, and TO-5 laser diode packages. The 203 Butterfly Laser. Pricing (USD) Filter the results in the table by unit price based on your quantity. A tariff of 8 % may be applied if shipping to the United States.

MKS Inc. - Newport ... MKS Inc.

We offer a variety of sockets compatible with laser diode packages such as TO-18, TO-46, TO-52, and TO-72. We also provide cable-equipped sockets designed for FCD.

Thorlabs offers a versatile range of accessories for convenient integration of photodiodes and laser diodes into functional systems. Our photodiode sockets,

These laser diode sockets are ideal for OEM-type implementations and are compatible with our selection of Ø3.8 mm, Ø5.6 mm, Ø9 mm, and TO-5 laser

Teflon Sockets for 5.6 mm and 9.0 mm laser diodes, 3-pins or 4-pins teflon body, gold plated contacts, superior quality

6Wresearch actively monitors the Mozambique Semiconductor Diode Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and

Accommodates most any TO package format with pin circle options of .079 " (2.0 mm) or .100" (2.54 mm), including popular laser diode

Laser Diode Socket is socket developed for the packaging and testing of laser diodes, TOSA, BOSA and ROSA. It is an essential tool for manufacturers of

Mozambique 7-pin laser diode socket

The MOT_BTSCCK test sockets are designed to allow the user to quickly evaluate and implement a laser diode design based on the popular butterfly package. It

Highlights Compact miniature socket size for maximum board density Accommodates most any TO package format with pin circle options of .079" (2.0 mm) or .100"

Mozambique - power plug and socket In Mozambique, electrical sockets and plugs are type C, F or M. Type C has two round pins, type F has two round pins with two earth clips on the side and type M

These sockets are open at the end and allow leads to pass directly through the socket, eliminating the need to cut the diode leads, which could damage the device.

What plug adapter do you need for Mozambique? A guide to plug sockets, voltages, converters and power adapters used in Mozambique.
