

Article Overview

NEC is the primary supplier for Palau's submarine optical cables, with additional international manufacturers providing fiber optic components.

Submarine Cable Projects in Palau

Palau's submarine connectivity is managed by the Belau Submarine Cable Corporation (BSCC), a state-owned entity established in 2016 to deliver high-speed broadband services . The two main projects are:

- o Palau Cable 1 (PC1): Launched in 2017, connecting Palau to the SEA-US cable system via Guam .
- o Palau Cable 2 (PC2): A 110 km subsea cable linking Palau to the Echo subsea cable system, providing high-capacity 100 Gbps transmission .

NEC supplied both PC1 and PC2, making it the key manufacturer and integrator of Palau's submarine optical cables . NEC's role includes providing the optical fiber, transmission systems, and installation services.

International Optical Cable and Component Suppliers

While NEC handles the submarine cable projects, Palau also sources optical components and modules from global manufacturers. Some notable suppliers include:

- o ETK Kablo (Turkey): Fiber optic and low-voltage communication cables for international markets .
- o Edmund Optics (USA): Precision optics and optical assemblies used in telecommunications .
- o ORAFOL Fresnel Optics GmbH (Germany): Microstructured optical components for high-performance applications .
- o Fleige Optik GmbH & Co. KG (Germany): Optical prisms and precision optical components .
- o INGENERIC (Germany): Optical components for high-power and scientific applications .

These companies provide fiber optic cables, optical modules, connectors, and testing equipment, which can be integrated into Palau's network infrastructure or used in custom cable assemblies.

Summary

- o Primary manufacturer for Palau's submarine cables: NEC (Japan) for PC1 and PC2 .
- o Network operator: Belau Submarine Cable Corporation (BSCC) manages and owns the cables .
- o Additional suppliers: International manufacturers like ETK Kablo, Edmund Optics, ORAFOL, Fleige Optik, and INGENERIC provide fiber optic components and modules .

Palau Optical Cable Manufacturers

This combination of NEC's submarine cable systems and global optical component suppliers ensures Palau has reliable, high-capacity connectivity to the U.S. mainland, Singapore, and Southeast Asia.
