

Article Overview

Portugal hosts several reputable manufacturers of outdoor distribution boxes, offering IP-rated, metal, and plastic enclosures suitable for industrial, residential, and renewable energy applications.

Key Manufacturers and Suppliers

- o Konner & Sohnen - Offers high-quality distribution boards suitable for indoor and outdoor use, supporting up to 7 device groups with a maximum current of 32A. Their enclosures are impact-resistant, water-resistant, and designed for long service life, including protection against overloads and short circuits (IP-rated) .
- o Metalocachoeira - Specializes in custom metal transformation, including laser-cut, CNC-bent, and welded metal enclosures. They provide tailored solutions for outdoor electrical distribution boxes with robust industrial capacity .
- o PSAPLAST - Plasticos Santo Antonio, LDA - Produces versatile plastic boxes and packaging, including multifunctional outdoor enclosures. Their experience since 1955 ensures reliable and durable plastic solutions for electrical distribution .
- o Saipwell - Manufactures waterproof boxes and enclosures in plastic, stainless steel, aluminum, and metal plates. Their products meet IP63-IP68 standards and are certified by UL, CE, RoHS, and TUV, making them suitable for harsh outdoor environments .
- o J L Nogueira Lda. RESUL - Focuses on equipment for electrical distribution networks, including outdoor enclosures for public lighting and smart grids. They emphasize renewable energy integration and energy efficiency .
- o ElectroREP - Provides medium and low voltage electrical systems, including outdoor distribution boxes. With over 30 years of experience, they offer solutions for industrial and renewable energy applications .

Considerations for Selection

- o IP Rating: Ensure the enclosure meets the required ingress protection (IP65 or higher) for outdoor use.
- o Material: Metal enclosures offer durability and impact resistance, while high-quality plastics provide corrosion resistance.
- o Certifications: Look for CE, UL, RoHS, and TUV certifications to ensure compliance with safety and quality standards.
- o Customization: Some manufacturers, like Metalocachoeira and Saipwell, offer tailored solutions for specific industrial or renewable energy needs.
- o Renewable Energy Compatibility: Companies like J L Nogueira Lda. RESUL and ElectroREP provide solutions compatible with smart grids and solar or wind energy integration. These manufacturers collectively cover a wide range of outdoor distribution box requirements, from residential and commercial installations to industrial and renewable energy projects, ensuring both durability and compliance with European standards.
