

Price list of explosion-proof electrical distribution boxes in Congo

Article Overview

Explosion-proof distribution boxes typically range from \$150 to over \$2,000 depending on size, material, and certification, with international suppliers able to ship to Congo.

Overview

Explosion-proof distribution boxes are designed to safely deliver power in hazardous environments, preventing sparks or heat from igniting flammable gases or dust. They are widely used in oil, gas, chemical, mining, and industrial facilities. These boxes are certified for Zone 1/2 gas (IIA-IIC) and Zone 21/22 dust environments, and comply with standards such as ATEX, IECEx, UL, and NEC .

Price Ranges

- o Compact junction boxes for small instruments or low-voltage terminations: \$150-\$400. Ideal for confined spaces and small I/O connections .
- o Medium industrial boxes for terminal connections, automation systems, or general-purpose wiring: \$400-\$1,000. These often feature reinforced steel or aluminum construction for corrosion resistance .
- o High-capacity or motor control boxes for isolating circuits, pumps, or motors: \$1,000-\$2,500+. These are built with stainless steel or fiberglass-reinforced polyester for extreme durability and chemical resistance .

Material and Certification Options

- o Steel or stainless steel: High mechanical strength, corrosion-resistant, suitable for offshore or chemical plants .
- o Aluminum: Lightweight, good corrosion resistance, often used in medium-risk industrial settings .
- o Polycarbonate or fiberglass-reinforced polyester: Impact-resistant, corrosion-proof, suitable for high-humidity or chemical environments .
- o Certifications: ATEX, IECEx, UL 1203, GB/T3836, and NEC compliance ensure safe operation in hazardous zones .

Suppliers and International Shipping

- o Hexlonex: Offers IECEx and ATEX-certified distribution boxes for Zone 1 and Zone 2 .
- o Alloy Industry Co., Ltd.: Manufacturer and exporter of explosion-proof junction boxes and control stations suitable for hazardous areas .
- o Alibaba: Bulk purchase options for IP65/IP66-rated explosion-proof distribution boxes with international shipping .

o Shengyiex (SEXESW): Provides multi-circuit explosion-proof distribution boxes with stainless steel or fiberglass housing, suitable for Zones 1, 2, 21, and 22 .

Recommendations for Congo

- o Confirm local import regulations and customs duties for electrical equipment.
- o Choose boxes with ATEX or IECEx certification to meet international safety standards.
- o Consider IP66 or higher for dust and water protection in tropical climates.
- o Contact suppliers directly for quotes including shipping to Congo, as prices vary with quantity, material, and certification level. By selecting the appropriate size, material, and certification, you can ensure safe and reliable power distribution in hazardous environments while managing costs effectively.

The main products have obtained ATEX EU explosion-proof certification and IECEx international explosion-proof certification. CZ has

Direct manufacturer of industrial explosion-proof lighting, enclosures, and electrical fittings.
