

## Article Overview

Vertical cable tray supports typically range from \$10 to over \$50 per unit, depending on type, material, and load capacity.

## Overview of Pricing

- o Basic wall or L-bracket supports for wire mesh or ladder cable trays are generally priced between \$10 and \$25 each. For example, Platt Electric Supply lists 6" L-brackets and center-type hangers in the \$13-\$23 range depending on size and finish .
- o Heavy-duty or reinforced supports designed for higher loads or exterior applications can cost \$50 or more per unit, such as bolted reinforced wall brackets or trapeze hangers .
- o Adjustable or telescoping supports with fire resistance or corrosion protection are available from specialized suppliers like nVent CADDY and Accio, with prices typically starting around \$20-\$40 and increasing for larger or more complex assemblies .
- o Amazon listings for zinc-plated steel vertical tray holders show prices in the \$15-\$30 range, suitable for standard wire mesh cable trays in office or industrial settings .

## Factors Affecting Price

- o Material: Hot-dipped galvanized steel or zinc-plated steel is more expensive than basic steel due to corrosion resistance .
- o Load Capacity: Supports rated for heavier cable loads or multiple trays cost more.
- o Adjustability: Telescoping or multi-position supports add to the price.
- o Installation Type: Wall-mounted, ceiling-mounted, or floor-mounted supports may vary in cost.
- o Brand and Certification: NEC-approved or UL-listed supports often carry a premium .

## Recommendations

- o For standard office or light industrial use, budget \$10-\$25 per support.
- o For heavy-duty or outdoor installations, plan for \$40-\$60 per support.
- o Always consider spacing requirements: supports are typically installed every 5 feet for wire mesh trays, which affects total project cost . By comparing suppliers like Platt Electric Supply, Amazon, nVent CADDY, and Atkore, you can select supports that balance cost, durability, and compliance with your installation requirements .
