

Price of cable tray 55

Article Overview

A 55 mm mesh cable tray typically costs between \$1.50 and \$4.50 per meter, depending on material and supplier.

Overview

For a mesh cable tray with a side height of 55 mm, such as the GR-Magic(R) 55 FT from OBO, the tray is designed with a 50 x 100 mm grid and interlocking connectors, maintaining electrical functionality without additional components . These trays are commonly used in industrial and photovoltaic installations.

Price Ranges by Supplier

- o OBO GR-Magic(R) 55 mm mesh tray: Available in 3-meter sections; pricing varies by distributor but generally aligns with industrial mesh tray rates .
- o Alibaba suppliers: Galvanized or stainless steel cable trays with similar dimensions are priced \$1.50-\$4.50 per meter, depending on order quantity and material .
- o McMaster-Carr: Offers zinc-plated steel trays with 55 mm depth; prices vary with width and included connectors, typically \$10-\$30 per section for short lengths .
- o eBay and Amazon: Under-desk or industrial mesh trays with comparable dimensions are listed from \$15 to \$60 per piece, depending on length and material .

Factors Affecting Price

- o Material: Stainless steel and aluminum trays are more expensive than painted or galvanized steel.
- o Length: Longer sections reduce per-meter cost.
- o Accessories: Trays including connectors, clamps, or covers cost more.
- o Supplier and shipping: Local distributors may charge more for fast delivery, while bulk orders from overseas suppliers can reduce unit cost.

Recommendation

For a 55 mm mesh cable tray, expect to pay around \$2-\$5 per meter for standard galvanized steel, with higher prices for stainless steel or pre-assembled kits. Always check if connectors or mounting hardware are included, as this can affect total installation cost .

If you buy a minimum of 10 meters of OBO Bettermann 6001442 OBO GRM 55 100 G mesh tray GRM 55x100x3000 St G we can
