

Price of cable tray elbow rivets

Article Overview

Cable tray elbow rivets typically cost around \$1.30 per piece when purchased in bulk, depending on material and supplier.

Pricing Overview

Cable tray elbow rivets are part of the broader category of cable tray fittings and accessories, which include elbows, tees, crosses, bends, risers, reducers, bolts, nuts, locks, and expansion screws . The price of these rivets can vary based on material (galvanized steel, stainless steel, aluminum, or FRP), size, and order quantity. For bulk purchases, suppliers like Alibaba offer cable tray elbows--including rivets--at approximately \$1.30 per unit .

Material and Supplier Considerations

- o Galvanized Steel: Common for industrial use, corrosion-resistant, and cost-effective.
- o Stainless Steel: Higher durability and corrosion resistance, slightly higher price.
- o Aluminum Alloy: Lightweight and corrosion-resistant, often used in overhead installations.
- o Fiberglass-Reinforced Plastic (FRP): Non-conductive and suitable for specialized environments .

Purchasing Tips

- o Bulk Orders: Prices decrease significantly when ordering large quantities.
- o Supplier Selection: Alibaba, JLH Electric, and other industrial suppliers provide customizable options and competitive pricing .
- o Compatibility: Ensure rivets match the specific elbow type and cable tray system (ladder, ventilated, or solid-bottom trays) for proper installation . In summary, for standard industrial cable tray elbow rivets, expect a unit price around \$1.30, with variations depending on material, supplier, and order volume. For precise pricing, contacting suppliers directly for quotes and bulk discounts is recommended.

Cable trays are components used in the wiring of buildings to support insulated cables and organise them to be hidden from view.
