

Price of installing concealed doors in large electrical distribution boxes

Article Overview

Concealed doors for large electrical distribution boxes typically range from INR13-INR15 per piece for standard metal boxes in India, with prices increasing for larger, customized, or IP-rated industrial cabinets.

Price Overview

- o **Standard Concealed Metal Boxes:** In India, suppliers such as Trupti Sales Agency and Marc Electricals offer concealed metal boxes starting at INR13-INR13.80 per piece, while slightly higher-end options are around INR14 per piece . These prices are for standard sizes and basic metal construction.
- o **Large Industrial Distribution Cabinets:** For larger electrical distribution boxes with IP65 ratings, galvanized or painted metal doors, and locking systems, prices are custom-quoted based on size, material, and additional features like sealing gaskets or mounting plates . These are typically used in industrial or commercial settings.
- o **PVC or Plastic Concealed Boxes:** Smaller concealed junction boxes made of flame-retardant PVC, compliant with BS4607 standards, are available for specialized applications in Hong Kong and Macau, with pricing dependent on specifications and customization .

Factors Affecting Price

- o **Material:** Metal doors (galvanized steel, powder-coated) are more expensive than PVC or GRP doors .
- o **Size and Capacity:** Larger distribution boxes require bigger doors, which increases cost.
- o **IP Rating:** Higher protection levels (IP54, IP65) for dust and water resistance add to the price .
- o **Customization:** Custom sizes, locking mechanisms, and finishes can significantly increase cost.
- o **Regional Standards:** Compliance with local electrical codes or standards (e.g., BS4607, UK DNO standards) may affect material and price .

Supplier Guidance

- o **India:** IndiaMART lists multiple suppliers for concealed metal boxes with competitive pricing and bulk order options .
- o **China:** Wenzhou Xujie Electrical Co., Ltd offers customized concealed distribution cabinets with IP65 protection and CE/RoHS certifications .
- o **UK:** Meter Boxes Direct provides replacement doors for recessed or surface-mounted electric meter boxes, made from GRP and weather-resistant materials, suitable for retrofitting existing boxes .

Recommendation

For large electrical distribution boxes, it is advisable to request quotes from multiple suppliers, specifying the required size, material, IP rating, and locking features. Bulk orders or industrial-grade cabinets will generally
