

Price range of explosion-proof outdoor electrical distribution boxes in Vietnam

Article Overview

Explosion-proof outdoor electrical distribution boxes in Vietnam typically range from USD 150 to USD 1,200 depending on size, material, and certification.

Overview of Pricing

The price of explosion-proof distribution boxes varies widely based on capacity, material, IP rating, and certification. Smaller boxes for low-voltage applications (e.g., 220V-380V, 10-40A) generally start around USD 150-300, while larger industrial-grade boxes with higher current ratings, stainless steel or coated steel construction, and IP66/IP67 protection can cost USD 800-1,200 or more . Imported units from China or South Korea may be priced higher due to shipping and compliance with international standards .

Factors Affecting Price

- o Material: Steel or stainless steel enclosures are more expensive than plastic or coated metal boxes .
- o Size and Capacity: Larger boxes with more circuits or higher amperage ratings increase cost .
- o Certifications: Compliance with IEC 60079 series, QCVN 01:2020/BCT, or other hazardous-area standards adds to the price .
- o Supplier and Origin: Local Vietnamese manufacturers may offer competitive pricing, while imported boxes can be more costly but may provide additional certifications or durability .

Market Context

Vietnam's explosion-proof equipment market is growing due to industrial safety regulations in oil & gas, chemical, mining, and power sectors, particularly in Ho Chi Minh City, Hanoi, and Da Nang . Enclosures and junction boxes are the dominant sub-segment, reflecting high demand for reliable protection of electrical connections in hazardous environments. The market includes both domestic suppliers and imported products, with China being a major source of imported distribution boxes .

Supplier Options

- o Alibaba Vietnam lists multiple suppliers offering explosion-proof outdoor distribution boxes with wholesale and OEM options .
- o Local Vietnamese manufacturers such as Sheng Shing, Yura Corporation Vina, and Furman provide certified boxes suitable for industrial applications . In summary, buyers in Vietnam can expect to pay USD 150-1,200 for explosion-proof outdoor electrical distribution boxes, with the final price influenced by size, material, certification, and supplier origin.
