Pricing starts at 2,000 to 5,000 dollars per month depending on size, location, and included services. Larger cages (6 to 10 cabinets) or build-to-suit requirements are quoted custom. However, understanding what drives these costs will help you make a smart buying decision. In this complete guide, we'll break down everything you need. Most data center colocation providers hide pricing behind request-for-quote (RFQ) processes. You contact them, wait three to five business days, and only then learn whether colocation fits your budget. This opacity makes it nearly impossible to benchmark costs, negotiate terms, or plan. Higher-density racks allow businesses to use fewer racks, reducing costs and space. A lower PUE means better efficiency. The best data centers aim for a PUE of 1. Power density affects efficiency. Belden offers a complete line of open frame racks and cabinets that support all applications, from single-rack or cabinet applications (such as retail and telecom closets) to high-density, multi-rack/multi-cabinet patching and switching fields (in computer rooms, data centers and central offices).

Navigate the complexities of colocation pricing with our comprehensive guide. Uncover factors of colocation costs to get the best deal.
