

Article Overview

Top professional FRP cable tray manufacturers include Shandong Hongfeng, Creative Composites Group, MP Husky, and NHC, offering high-quality, corrosion-resistant, and customizable fiberglass cable tray systems.

Leading Manufacturers

Shandong Hongfeng Power Technology Co., Ltd. specializes in cable tray systems with over 20 years of experience. They operate 200,000m² of facilities with ten automated production lines and two powder coating lines, achieving an annual capacity of 100,000 tons. Hongfeng provides factory-direct cable tray systems with flexible customization, complete fittings, and technical support for industrial and infrastructure projects, emphasizing quality control and rapid delivery for overseas B2B cooperation. Creative Composites Group produces Enduro FRP cable trays designed for extreme conditions, including offshore platforms, chemical plants, and refineries. Their pultruded fiberglass trays are highly durable, corrosion-resistant, non-conductive, and impact-resistant, offering a superior strength-to-weight ratio compared to steel. MP Husky has over 30 years of experience in the offshore Oil & Gas industry. Their fiberglass cable trays are non-conductive, non-magnetic, corrosion-resistant, and lightweight, weighing one-third of steel trays while maintaining superior strength. MP Husky offers polyester and vinylester resin systems, flame-retardant and self-extinguishing properties, and custom color options, making them suitable for harsh industrial environments. Nanjing Hypro Composites (NHC) manufactures high-quality FRP cable trays with a focus on high strength, lightweight, corrosion resistance, flame retardancy, and anti-static properties. NHC is certified to ISO 9001, ISO 14001, and ISO 45001 standards, and provides customized solutions with patented designs and compliance with RoHS and REACH requirements.

Key Features of FRP Cable Trays

- o Corrosion Resistance: Ideal for chemical, offshore, and high-moisture environments.
- o High Strength-to-Weight Ratio: Easier installation and reduced transportation costs.
- o Non-Conductive and Non-Magnetic: Safe for electrical and sensitive equipment applications.
- o Customizable: Available in various resin systems, colors, and sizes to meet project specifications.
- o Compliance and Certification: Many manufacturers adhere to ASTM, ISO, RoHS, and REACH standards. These manufacturers provide reliable, durable, and high-performance fiberglass cable tray systems suitable for industrial, commercial, and infrastructure projects, ensuring long-term safety and efficiency.

MP Husky Fiberglass Cable Tray is available in both polyester and vinylester resin systems. They are manufactured to meet ASTM E

Professional Fiberglass Straight Cable Tray Manufacturer

Our fiberglass cable tray has been designed by our technical experts to meet customer needs for quality performance in the harshest

Fiber Cable Trays Our Fiber Cable Tray System is a comprehensive raceway solution for data center, enterprise, central office, and

FRP Cable Trays are non-metallic support systems for routing electrical and data cables in industrial and commercial facilities. Made

Complete cable tray systems, fittings and technical references from one source. Sample support and responsive communication to

Find your cable tray easily amongst the 87 products from the leading brands (Legrand, LaCont, Rototherm, ...) on DirectIndustry, the

International Fiberglass Manufacturer and Supplier A full line of fiberglass cable tray with fittings and lay-in wireway systems is

Build a cable management system with Cablofil wire mesh cable tray, ladder cable tray, prefab assemblies for branch circuit wiring,

Discover FRP Cable Trays: The Future of Durable & Eco-Friendly Cable Management. Learn How

FRP CABLE TRAY & LADDER Fiberglass Reinforced Plastic is produced from combination of fiberglass and resin. Cable tray

Chemitech Group is a leading FRP cable tray manufacturer, providing high-quality FRP cable trays for durable and reliable cable

Our fiberglass cable tray gives you the load capacity of steel plus the inherent characteristics afforded by

Fast installation with dependable support. Everything you need to build a cable management system, including Cablofil wire mesh

Cable Trays and Accessories are designed to meet most requeriments of cable and electrical wire installations and comply to local

That"s why more projects are specifying fibreglass cable trays from the start. At AMROCK, we manufacture a complete range of GRP

Professional Fiberglass Straight Cable Tray Manufacturer

GFRP cable trays consist of a series of interconnected channels or trays designed to hold and support electrical cables and wires.
