

Article Overview

The price of the H3C S7006 core switch varies depending on configuration, new or refurbished status, and supplier, typically requiring direct inquiry for an accurate quote.

The H3C S7006 is a high-end modular core switch designed for large-scale enterprises and data centers, offering advanced performance, scalability, and security features . Pricing is not fixed online due to the customizable nature of the switch, which can include different numbers of line cards, power supplies, and accessories such as transceivers, stacking cables, and rack-mount kits . Price considerations:

- o New units: Typically sold through authorized distributors or Alibaba suppliers, with prices often negotiated based on order volume and configuration .
- o Refurbished units: Available from specialized resellers, offering cost savings while maintaining warranty support, usually around 12 months .
- o Accessories and modules: Additional costs may apply for extra line cards, power supplies, or SFP modules, which are essential for full functionality . How to obtain pricing:
- o Contact suppliers directly via Alibaba or official H3C distributors to request a quote, specifying the desired configuration and quantity .
- o Some vendors provide live chat or email support to assist with pricing and delivery options . Additional notes:
- o Shipping fees and delivery times are typically negotiated with the supplier, often taking 5-7 working days after payment confirmation .
- o Warranty coverage is generally 12 months, excluding damage from misuse or modifications . For accurate pricing, it is recommended to reach out to multiple suppliers to compare quotes and ensure compatibility with your network requirements.
