

Article Overview

Bellcom Technologies and Horizon LATAM are key providers of high-quality cold aisle network cabinets and containment systems in Suriname.

Bellcom Technologies

Bellcom Technologies, located at Henck Arronstraat 42-44 in Suriname, offers network cabinets made of high-quality SPCC 1.5mm cold-rolled steel. Their cabinets feature reinforced, heat-treated 5mm tempered glass front doors with security locks, removable side panels for easy maintenance, and a welded frame structure with cage nut-style rails. These cabinets are designed for durability, security, and ease of installation, making them suitable for data centers and network infrastructure projects in Suriname .

Horizon LATAM

Horizon LATAM manufactures high-quality cabinets for data rooms, electrical rooms, and hot/cold aisle isolation systems. Their products include modular row-based thermal containment solutions that separate cold and hot air streams, improving cooling efficiency and reducing operating costs. Horizon cabinets are made from premium materials, with options for micro-perforated or tempered glass doors, pre-installed fan trays, and modular designs that allow quick deployment and future expansion. These cabinets are engineered for both protection and airflow management in data centers .

Cold Aisle Containment Systems

Both Bellcom and Horizon provide solutions compatible with cold aisle containment, which isolates cold supply air from hot exhaust air to maximize cooling efficiency. Modular panels, roof structures, and doors are designed to integrate with existing cabinets, ensuring energy-efficient operation and compliance with data center best practices. Proper installation can reduce cooling costs by 20-50% while maintaining safety and fire suppression integration .

Regional Support and Installation

For Suriname, companies like Caricold specialize in cooling solutions and collaborate with local partners to provide installation and maintenance support. While primarily focused on refrigeration, their expertise in modular cold environments can complement data center cooling projects, ensuring European-quality materials and local service availability .

Summary

Suriname Cold Aisle Network Cabinet Manufacturer

For organizations in Suriname seeking cold aisle network cabinets, the main options include:

- o Bellcom Technologies: locally available, reinforced steel cabinets with security features and modular design .
 - o Horizon LATAM: modular cabinets and aisle containment systems with high-quality materials and airflow optimization .
 - o Caricold: regional partner for cooling and installation support, particularly for larger or integrated projects .
- These providers offer both hardware and installation support, ensuring efficient, secure, and scalable data center infrastructure in Suriname.
