

Article Overview

Leading Taiwanese manufacturers of high and low voltage equipment include Chuanli Electric, Challenge Industrial Co., TECO, Allis Electric, and Tieno Enterprise, offering complete solutions from switchgear to transformers.

Key Manufacturers

1. Chuanli Electric Co., Ltd. Chuanli specializes in both high and low voltage electrical equipment, including high voltage switchgear, box-type substations, low voltage switchgear, cable distribution boxes, and power transformers. Their products support 11kV-40.5kV input and 400V output, with arc-proof designs and SCADA compatibility for remote monitoring. Chuanli emphasizes modular designs, energy efficiency, and compliance with IEC, GB/T, and ISO9001 standards. They also provide customized solutions and maintain a 30,000m² manufacturing base with a dedicated R&D center for switchgear innovation . 2. Challenge Industrial Co., Ltd. (CIC) CIC is a leading manufacturer of current transformers, voltage transformers, distribution transformers, epoxy insulators, and electronic meters. Established in 1974 and headquartered in Taipei, CIC serves global clients with ISO-certified products. They offer complete power solutions, including electrical reactors and EV chargers, and operate accredited testing laboratories to ensure quality and reliability . 3. TECO Energy Products Division TECO provides a full range of medium and low voltage switchboards, power distribution equipment, and molded case circuit breakers. They offer pre-sales and after-sales services, including system planning, design, manufacturing, and maintenance. TECO products comply with CNS, IEC, NEMA, and VDE standards and have obtained CSA, UL, and TUV certifications. Their equipment is widely used in industrial, public, and urban installations . 4. Allis Electric Co., Ltd. Founded in 1968, Allis Electric produces low-voltage switchgear, motor control centers, high/low-voltage integrated panels, AC/DC industrial control equipment, and transmission & distribution apparatus. They provide UPS, SCADA systems, and customized transformers. Allis operates globally with certified factories and laboratories, offering high-voltage equipment recognized under Taiwan's Ministry of Economic Affairs . 5. Tieno Enterprise Co., Ltd. Tieno Enterprise began as an importer of high and low voltage equipment and evolved into a manufacturer and assembler under strategic partnerships with European brands like VEI Electric Systems. They supply RMU systems, high-voltage distribution equipment, and have facilities in Taiwan and China for full production and assembly. Their products are used in hospitals and nuclear power plants, demonstrating long-term reliability .

Summary

Taiwan hosts several comprehensive high and low voltage equipment manufacturers capable of supplying switchgear, transformers, distribution panels, and related electrical apparatus. These companies provide customized solutions, international certifications, and global service networks, making them suitable for industrial, utility, and infrastructure projects. Depending on your specific needs--such as high-voltage
