

Upgrading of fiber optic communication cables in vulnerable areas of Afghanistan

Preview

The Afghanistan Telecommunications Regulatory Authority (ATRA) has played a crucial role in coordinating these efforts, working with local and international telecom companies to implement network upgrades, address regulatory issues, and encourage investment in the sector. Digital CASA (Central Asia South Asia) is a World Bank funded regional program that includes projects in Afghanistan and some Central Asian countries. Scope: Deployment of a 1,200-km fiber optic backbone network integrating aerial, underground, and submarine routes to enhance national broadband connectivity and support 5G/FTTH rollout. In addition, ATRA oversees. Afghanistan is fast developing into a major trade and transit hub for subsea and transcontinental communication. Once completed, the 4,600 Afghan Fiber Optic Ring (also known as the Afghan National Civil Optical Fiber Cable-OFC ring network) within the broader regional "Digital Silk Road" aims to. The Ministry of Communications and Information Technology has announced the approval of a project to lay 488 kilometers of fiber optic cable across Afghanistan. Enayatullah Alokozay, the spokesperson for the ministry, stated that the operations to extend and connect the fiber optic network have.
