

## Article Overview

Leading smart distribution box manufacturers in Vietnam include GEYA, LS Electric Vietnam, IREX, and Tai An Co., Ltd., offering advanced, ISO-certified solutions for industrial, commercial, and residential applications.

## Key Manufacturers

GEYA provides smart distribution boxes and advanced circuit breakers, including WIFI-enabled smart breakers with real-time monitoring. They specialize in OEM solutions and support complex commercial installations, offering technical guidance and detailed documentation for proper setup and integration. Their products are suitable for modern office buildings and industrial facilities requiring smart energy management and leakage protection. LS Electric Vietnam Founded in 1997, LS Electric Vietnam is a leading switchgear and distribution box manufacturer. They offer a wide range of products for primary and secondary power distribution, including smart automation solutions, PLCs, AC drives, and HMIs for real-time monitoring. LS Electric Vietnam is ISO-compliant and has extensive experience supplying power solutions for industrial, commercial, and residential sectors, ensuring high reliability and safety. IREX (SolarBK Group) IREX manufactures distribution boxes for solar water heating systems and electrical cabinets, certified under ISO 9001:2015, ISO 14001:2015, and IEC 61439-2:2011 standards. Their products are fireproof, dustproof, and waterproof, reflecting a commitment to quality, safety, and environmental compliance. IREX is suitable for both domestic and international markets, particularly for renewable energy and photovoltaic applications. Tai An Co., Ltd. Tai An Co., Ltd. is a local supplier of distribution boxes in Vietnam, providing trading and distribution services. While specific smart features are not detailed, they are a potential contact for sourcing standard and customized distribution boxes.

## Considerations for Procurement

- o Certifications: Look for ISO 9001, ISO 14001, and IEC compliance to ensure quality and safety.
- o Smart Features: WIFI-enabled breakers, real-time monitoring, and remote management are increasingly important for energy efficiency.
- o Technical Support: Companies like GEYA provide remote guidance and detailed documentation for installation.
- o Export Capability: Suppliers such as those listed on Volza have verified shipment records and international buyer networks, useful for global procurement. These manufacturers provide a robust selection of smart distribution boxes suitable for industrial, commercial, and residential applications in Vietnam, with options for both local and international buyers.
