

Article Overview

Leading global manufacturers of cable trays include Atkore, Niedax Group, OBO Bettermann, Legrand, Tianhong, Kam Tai, and several specialized regional producers.

Major Global Manufacturers

- o Atkore International: A prominent manufacturer offering a wide range of cable tray systems, including stainless steel, galvanized, and custom solutions for construction and industrial projects, with global distribution capabilities .
- o Niedax Group: A European leader in metal cable trays, providing solutions for industrial, commercial, and energy sectors, compliant with international standards like IEC 61537 .
- o OBO Bettermann: Offers metal cable trays engineered for demanding industrial environments, including fire-resistant and perforated trays, with a presence in over 60 countries .
- o Legrand: A global specialist in electrical infrastructure, producing steel and aluminum cable trays and expanding its portfolio through acquisitions such as AFCO Systems .

Notable Regional and Specialized Manufacturers

- o Shandong Tianhong Electric Power Technology Co., Ltd.: Based in China, Tianhong manufactures perforated trays, cable ladders, trunking, and fittings, offering OEM/ODM services and automated production for high-quality, customizable solutions .
- o Kam Tai Products: With over 30 years of experience, Kam Tai provides cable trays, ladders, baskets, and U-channel systems, along with accessories for complete cable containment solutions .
- o Chalfant Manufacturing: Known for innovative cable tray lines like GR_Magic and RKS-Magic, offering tailored solutions for industrial and commercial applications .
- o Sunil Engineering Corporation and ELCON CABLE TRAYS PVT. LTD.: Indian manufacturers specializing in ladder, perforated, and wire mesh trays, along with accessories and junction boxes .
- o Snake Tray: Offers aluminum and steel cable trays with a focus on durability and ease of installation .

Product Types and Materials

Cable tray manufacturers typically offer:

- o Ladder trays: For heavy-duty cable support and ventilation.
- o Perforated trays: For lighter loads and improved airflow.
- o Wire mesh trays: Flexible routing and easy installation.
- o Materials: Steel (galvanized or stainless), aluminum, fiberglass (FRP), and PVC. These companies cater to diverse industries, including construction, energy, data centers, and infrastructure projects, providing both
